Re: APPGRT manifesto (for Radiotherapy Improving cancer survival with a modern world class radiotherapy service)

Dear Gillian,

We would like to formally state the Swallows Head & Neck Cancer Charity is fully behind the APPGRT manifesto.

It is so important that everyone strives to improve Radiotherapy service and with the ultimate outcome of Improving cancer survival with a modern world class radiotherapy service.

Tomorrows patients need us all to get behind this campaign.

If we can do anything to help bring the patients voice to this campaign, then please do not hesitate to contact myself.

Good luck and all of us at the Swallows will be following your work.

Kind regards

Chris Curtis
World H&N Cancer Ambassador/Chairman
